North Park Village Nature Center Chapter
In creating our gardens, we take our cues from the beautiful things and places we have seen in “the natural world.” The location – the earth – tells us what goes where. The conditions, such as the amount of sun or shade, the type of soil, the amount of moisture an area will get and retain all dictate what types of plants will be happy, will thrive and will coexist there. The native plants we use will all belong together there, as they have since ancient times to create a sense of harmony.

Kalamazoo Area Chapter
Native Connections offers consultation services on restoration of native ecosystems, specializing in native landscape design and installation of prairie, wetland, and woodland ecosystems. We can help provide seed mixes of local and regional genotype. We can also provide native seedlings, small or large scale quantities. Wild Ones goals are very much in line with our own personal and business goals. Large scale producers of Michigan genotype native grasses. “Working to restore our natural world.”

Grow Your Business or Organization Along With Wild Ones

With Business or Affiliate membership at the Wild level you receive: Annual listing in the Wild Ones Journal Yellow Pages • Extra copies of the Wild Ones Journal, for employees or clients • Resource listing on the Wild Ones web site • Open invitation to you and your employees at Wild Ones chapter activities.
When patronizing a business or organization you think is compatible with the mission of Wild Ones, ask them to consider joining Wild Ones.

Western Reserve Chapter
Ohio Prairie Nursery is a grower and supplier of native seed and plants, and a provider of related services. We strive to supply individuals and organizations with the products and services necessary to be successful with the reestablishment of native species into the landscape. We believe that the best way to renew the ecosystems, on which we all depend, is through educating and raising the awareness of individuals who can make immediate decisions that positively impact our planet. Our products include standard and custom native seed blends for a wide range of applications, as well as individual species of seed. Our plant offering includes rain gardens and hummingbird/butterfly gardens, and custom plant packages, as well as individual plant species. Our services include: custom seed mix design and blending, custom seed cleaning, contract growing, commercial native seed specification review, and educational presentations. Our installation group and affiliates work on seeding projects of all scales from back yards to hundreds of acres, and are available to subcontract rain garden installation in the Great Lakes region. We also do retail sales via our web store. Please call for information on wholesale and group sales.

Central Wisconsin Chapter
Our 1835 farmstead on the Crystal River in the historic village of rural, exudes country charm on “Rustic Road 23”, four miles south of Waupaca, in central Wisconsin. As A Wild Ones member, we are committed to making as gentle impact on the Earth as possible, and to restoring native-plant communities and wildlife habitat on our 11 acres. We are “Travel Green Wisconsin” certified and have just begun our work of prairie restoration and invasive removal on this former farm. The Inn features seven guest rooms with antique furnishings, a view of the river or woods, a nook for reading or visiting, and two cabins for families. Guest rooms have private baths and fireplaces. Two rooms also have a double whirlpool. All include a full breakfast with a Southern touch, featuring our home-made local wild grape and wild plum jelly. Our non-smoking environment has free high-speed wireless Internet, meeting space for small groups, and we’re open year round. Our land has paths through fields and woods, an outdoor seven-circuit classical labyrinth, and seven monitored bluebird houses. The wide variety of habitat on our land and the area from tamarack swamps to hardwood uplands invites local wildlife like river otter, bald eagle, and Karner blue butterfly. The area offers many restaurants and recreation opportunities: biking, birding, boating, canoeing, walking, fishing, nearby state parks, and charming small towns. A rural Wisconsin treasure.

De Pere Greenhouse & Floral, LLC
1190 Grant St, De Pere WI 54115
(920) 336-8992
niedziw@uwgb.edu
www.deperefloralwi.com
Green Bay Chapter
Established 112 years ago, the De Pere Greenhouse and Floral, LLC is the oldest greenhouse in Brown County. The business long has been known for its quality plants and floral arrangements, as well as its dedication to meeting the needs of local community citizens, groups, schools, and churches. Restoring our natural landscapes is important, and we are dedicated to helping people do just that. We offer native plants for a variety of native landscapes, including bird gardens, hummingbird gardens, rain gardens, butterfly gardens, prairie flower gardens, gardens for shady areas, gardens consisting of plants known to heal, gardens with plants not friendly to deer, low-growing gardens for spatially tight places, and moon gardens that “glow” at night. We grow native plants that will add beauty to your land, that will attract butterflies and birds, and that will add diversity to your land. We also specialize in growing many varieties of heirloom vegetables (seeds from Seed Savers Exchange) including many varieties of tomatoes, peppers, and herbs. This year, we are expanding our heirloom plants to include heirloom flowers.

Door County Chapter
Door Landscape is a full-service native landscape company located in the heart of one of the most diverse eco-regions in the world. Our core values include the education of our employees and our clients on the value of sustainable design and maintenance. Door Landscape focuses on the creation of sustainable, well-planned gardens that reflect the plant communities in our region and our peninsula. Our nursery division currently propagates over 70 native Door County species for use in our client’s gardens. From pre-construction plant surveys and site analysis through the design, installation, and continued care processes, we strive to exceed our client’s expectations.

Wild Ones Business and Affiliate Members Yellow Pages 2010
Welcome to Fields Neighborhood, an innovative holistic community nestled in the rolling hills of southern Wisconsin that combines sustainable living with a strong community atmosphere and respect for the natural environment. Fields Neighborhood offers a range of clustered homes that integrate the latest green building technologies with design principles that minimize the impact on the natural surroundings. Discover homes built with concern for your comfort and for the environment. Fields Neighborhood offers certified Green Built Homes with quality craftsmanship and state-of-the-art environmental elements such as sun-tempered design, low-toxin and recycled building materials, low-voc paints, real linoleum floors, and solid wood kitchen and bath cabinets. Enjoy the many recreation and community activities. Watch the sun rise over the nearby hills, canoe in the neighboring Honey Creek, swim in the nearby lake, listen to music on the town square, or enjoy the annual 4th of July parade, hike on the many natural trails, ski at Alpine Valley, take part in gardening classes at Michael Fields Agricultural Institute, enjoy freshly baked organic bread and foods from Fields Best and the local organic-farming community, and much more. Grow your spirit in Fields Neighborhood. Meet new friends at potlucks or seasonal festivals at next door’s Michael Fields. The Climbing Tree Waldorf-inspired Community and Daycare center in East Troy, or Prairie Crossing Waldorf School just 30 minutes from the Fields Community offer quality heart-centered education. Learn more about Fields Neighborhood by taking our online tour at www.fieldsneighborhood.org. Come live the life you’ve imagined at Fields Neighborhood.

Our training and experience in landscape-design principles enables us to artistically combine native plants and local materials in an inherently eco-friendly way for a wide variety of settings. Sustainable outdoor living environments created by Formecology, LLC provide a vision and master plan for achieving a fulfilling and rewarding outdoor lifestyle, while being mindful of the environment.

Good Oak Ecological Services
205 Walter St, Madison WI 53714
(608) 209-0607
frank@goodoakllc.com
www.goodooakllc.com

At Good Oak Ecological Services our mission is to improve the environment for the benefit of people and the natural community. We are experts in native plants and the ecology of natural areas, and we use this knowledge to create beautiful native landscapes, and restore natural areas to a more pristine condition. Our primary background is in natural-areas restoration, a discipline in which we work to rehabilitate damaged ecosystems so that these wonderful places and the wildlife that live in them can thrive and be enjoyed far into the future. But these remaining natural areas alone are too small and too fragmented to provide enough habitat for our wild plants and animals. Our cities and towns are sterile, with heavily manicured shrubs, high-maintenance annuals and perennials and chemically dependent lawns. By working with us to integrate native plants into our human landscape we can enliven your home, business, and community, while giving our wild plants, butterflies, birds, and other wildlife a place to live.

Formecology LLC
210 Cemetery Rd, Evansville WI 53536
(608) 882-6656
info@formecology.com
www.formecology.com

Formecology, LLC is a full-service landscape design, installation, and care firm focusing on regionally inspired and sustainable outdoor living environments for residential and commercial settings. “Formecology” is born from the idea of combining art with nature; bringing natural elements together with cultural art forms to create landscapes that are appropriate both to site architecture and nature.
Our innovative approach toward logically sensitive installation, and low-impact main-sans who specialize in native-landscape design, eco-staff of designers, horticulturists, arborists, and artists who specialize in native-landscape design, ecologically sensitive installation, and low-impact maintenance practices. Our innovative approach toward landscaping ensures that each project meets our client's needs and benefits the environment. We have enthusiastically accepted a position of land stewardship, and will continue to help protect and restore the delicate ecosystems and biodiversity of the upper Midwest. Call us for a consultation.

**Landscape Restoration**

8221 W Front St, Hanover WI 53542
(608) 302-5744 dateink@vlnet.com
Partner-at-Large

*Landscape Restoration* is a small, experienced, value-based, natural-area planting and management company. We're professionally certified (S-390 burn boss, WI herbicide applicator) and fully insured. And we're doing what we believe in: promoting native plants and battling invasive species to help you manage your property for natural diversity with common-sense economics. Our work includes building native-stone walls, establishing native plantings in flood-prone residential sites, burning prairie patches and 80-acre CRP fields, rescuing native plants, planting roadides and steep berms, controlling garlic mustard and buckthorn in woodlands, and attacking Canada thistle, crown vetch, multiflora rose, and gypsy moth infestations. Every year we donate a rain garden through the Wisconsin Rivers fall online auction (it's a tax-deductible landscape addition for a good cause), and in 2009 we are offering discounts for Wild Ones members in southern Wisconsin. If you would like a little help bringing nature back into balance on your property, give us a call for a free evaluation and proposal.

**Marshland Transplant Aquatic Nursery**

PO Box 1, Berlin WI 54923
(800) 208-2842 (920) 361-4200 fax marshland@kenturytel.net

Fox Valley Area Chapter

The largest wholesale aquatic nursery in the Midwest, Marshland Transplant Aquatic Nursery produces quality native-plant materials for large-scale wetland mitigation and native restorations. We also provide installation services for a variety of projects, including habitat restoration, wastewater treatment, erosion control, bioengineering, and mine reclamation. Specialty services include mowing/maintenance, prescribed burning, no till drilling and delineation, mitigation, and monitoring. Join us in rebuilding our environment. We sell only to wholesale firms, contractors, ecologists, professional organizations, and nurseries.

Wisconsin Department of Natural Resources, the U.S. Fish and Wildlife Service, and individual landowners. These services include planning and design, material installation, monitoring, and maintenance. NES ecologists use their knowledge and experience with Wisconsin’s native-community types to design and implement aesthetically pleasing, natural landscapes utilizing only plant species native to the site’s region. The use of locally native species is a very important factor that is often overlooked, but is important in not only assuring a project’s success, but also in meeting all the objectives of a restoration. Each restoration project is catered to the individual or group based upon their need, experience, and willingness to be involved with the “hands-on” portion of the project. Visit our web site to review a few of our most recent projects, along with a complete list of all the services we offer.

Northern Sunset Perennials

STONE SILO PRAIRIE GARDENS
Specializing in Native Prairie Plants
Our business is committed to the preservation of native species and their use in a homeowner’s landscape design. We specialize in growing native Wisconsin grasses and wildflowers that can be used in gardens and landscape designs for your home. We have a large selection of plants for rain gardens as well. See our plant list, order online, or visit us at our greenhouse in the Green Bay, Wisconsin, area. Stop by and see our new prairie, gardens, and rain garden.

When visiting any of our Business or Affiliate Members, show them your Wild Ones I.D. card, and let them know you heard about them through Wild Ones. Remember that some Business Members give discounts to Wild Ones members.

Respect: Our mission stems from our respect for the other species on this planet and future generations. We will treat each other – our staff, members and volunteers – with respect at all times. We respect different tastes in landscaping but also ask that others show respect for the common good by considering how they can conserve resources and improve the environment via the inclusion of native plants in their landscapes.

Personalized support: our members value the opportunity for direct contact with other Wild Ones members and the ability to “learn locally.” This sets Wild Ones apart from many similar organizations. Networking and education are our most important functions.

Appreciation: To keep our dues low and our efforts local, Wild Ones is a grass-roots organization that runs primarily on volunteer effort. We will continue to rely on volunteers to carry our mission forward. We will support our volunteers and recognize their efforts, especially those in volunteer leadership positions.

All members are valuable members: At the national level our income is largely derived from member dues and donations. We appreciate all members, respecting that everyone has varying priorities and demands on their time which impact their ability to volunteer.

Fresh and adaptable: While we stay focused on our core abilities and goals we will continually look for and solicit ideas from our Board, our members and honorary directors for new strategies we might use to further our goal of promoting sustainable landscape practices.

Mid-Mitten Chapter
Chippewa Nature Center is private, non-profit organization whose mission is to inspire people and institutions to protect the natural world. The Center includes 1,200-acres of woodlands, wetlands, rivers, and upland fields. There are more than 15 miles of hiking trails open daily, including the Chippewa Trail, a 3.5-mile recreational trail to downtown Midland. A wide variety of programs are offered year-round for children, families, and adults, along with school programs, Nature Preschool and Summer Nature Day Camp. CNC is also home to a complex of three restored log buildings, encouraging visitors to step back in time. The Center offers free admission daily, except during major events. A native-plant sale held each spring offers native genotype plants, advice, and help with planning natural areas. Wildflower and fungi hikes throughout the year and the Garrett Arboretum of Michigan Trees and Shrubs encourage participants to use native plants. Lots of other hikes, field trips, and workshops are also part of the daily schedule. Visit our web site for current program information.

Kalamazoo Area Chapter
The Kalamazoo Nature Center is a not-for-profit organization whose mission is to inspire people to care for the environment by providing experiences that lead them to understand their connection to the natural world. Our Community Wildlife Program works with businesses, golf courses, schools, and private land owners to enhance wildlife habitat through native landscaping. We can assist with site evaluation, plant selection, design, and installation. Our Great Lakes Ecological Program offers services such as site evaluation, management-plan development and implementation. Specializing in invasive species control and prescribed fire the Great Lakes Ecological Management team has worked with government, non-profits, and private landowners to implement large- and small-scale restoration activities.

Flint River Chapter
The purpose of the Mott Community College Gardening Association (MCCGA) is to educate students and the community on basic horticultural practices and their benefits through lectures, volunteer projects, and gardening-related activities in and around the MCC campuses, as well as in our community. We began installation of a native plant garden in spring, 2005, which will demonstrate and help us to share the benefits of rebuilding native-plant habitats. We’ve established the Campus Beautification Endowment fund to support MCC campus gardens and the educational benefits they afford our students. Tax-deductible donations may be made payable to the Foundation for Mott Community College (501(c)3) and mailed to the address above.

Fox Valley Area Chapter
Heckrodt Wetland Reserve includes 76 acres of forested wetland, wetland meadow, open-water, and upland-field communities. The wheelchair- and stroller-friendly 3-plus-mile trail system includes a boardwalk that allows access to the wetland without getting wet feet. Facilities include a nature center with indoor living wetland and live reptiles, amphibians, and fish, as well as mounted specimens of Wisconsin mammals and bird species. Educational programs are provided for schools, daycares, special focus groups, and the general public. Our goal is to provide visitor education while fostering an ethic of environmental stewardship in a fun, hands-on atmosphere. Information about the reserve and its programs can be found on our web site.

Green Bay Chapter
The Bridge-Between Retreat Center, established in 1987, is nestled in the countryside on a 100-year-old working farm. The Bridge’s mission is to provide a contemplative place in which to deepen relationships with God, self, neighbor, and Creation. We serve both soul and soil, recognizing the sacredness in all of life from the microorganisms in the organic garden to the farm animals and wild critters. We strive to honor Earth in all that we do, building a vision for a sustainable future. The center offers overnight retreats for groups and individuals (self-directed or guided) spiritual direction, workshops, special events, and off-site speaking engagements. All are welcome at The Bridge — whatever your spiritual beliefs may be. Come, enjoy the farmstead, join in a family-style meal, learn, relax, pause, and appreciate all of Creation’s sacredness. Volunteer opportunities abound.

Almost all the photos used in the Wild Ones Yellow Pages were taken by Wild Ones members, for our annual photo contests, and for other occasions.
Are You Ready for a Wild Idea?
Join Wild Ones as a Business Member or an Affiliate Not-for-Profit Organization Member
Grow Your Organization Along With Wild Ones.

Wild Ones: Native Plants, Natural Landscapes promotes environmentally sound landscaping practices to preserve biodiversity through the preservation, restoration, and establishment of native-plant communities. Wild Ones, a voice for the natural landscaping movement, was established in 1979, and now has more than 50 chapters in North America.

Wild Ones events include seed gathering, seed exchanges, plant rescues, plant sales, speaker presentations, bus tours, garden tours, conferences, and community projects. New chapters are forming all the time. For a current listing of chapter locations, visit our website or contact us directly.

Wild Ones: Native Plants, Natural Landscapes is a not-for-profit educational organization. Your Business Membership or Affiliate Membership donation is fully tax-deductible.

Benefits of membership for Wild Ones Business Members and Affiliate Members
Join this growing movement today. As a Wild Ones Business Member or Affiliate Member, your organization is entitled to these great benefits:
• Acknowledgement in the Wild Ones Journal.
• Annual listing in the Wild Ones Journal.
• Listing on Wild Ones website (www.for-wild.org).

And to share with your employees and clients:
• Extra copies of the Wild Ones New Member Handbook.
• Extra copies of the bi-monthly Wild Ones Journal.
• Copies of Wild Ones educational brochures to share with clients and the community.
• Wild Ones Recognition Decal for your office or shop window.

Your Business Membership or Affiliate Membership entitles you and your organization to participate in all Wild Ones national and chapter activities, either locally or across the United States – a great networking opportunity.

A few words about the new Affiliate Not-for-Profit Organization Membership
The benefits of membership are pretty much the same for Business Members and Affiliate Members. The difference is that, in the Wild Ones Journal, the Yellow Pages, and on our website, Affiliate Members will be listed with other not-for-profit organizations instead of with for-profit businesses.

With this new membership category, people looking for information about your organization will likely look in our Affiliates listing first.

It is our goal to form a “partnership” with other not-for-profit organizations in order to enlarge the circle of influence, spreading the word about the benefits of using native plants, and the need for maintaining biodiversity.

Join today, and find out what other Wild Ones Business Members and Affiliate Members already know.
