Great Lakes Native Plants
10371 Rainey Rd, Litchfield MI 49252
(517) 640-4547
drew@glncpo.com
www.greatlakesnativeplants.com
Red Cedar Chapter
Great Lakes Native Plants is a grower and distributor of plants native to the Great Lakes eco-region. All of our plants are source-identified, and can be shipped to arrive at your destination on the day of your choosing. We custom-grow plants for projects, and have an extensive supply of plants in inventory. Most plants are in 38-deep trays and can be grown in gallon containers. We have the capability to assemble rain garden kits for sun and shade, as well as hummingbird/butterfly kits with 10 to 12 species in each tray. We service the commercial, restoration, and retail markets.

Red Cedar Chapter
Wildtype exclusively grows plants native to Michigan, from Michigan genotypes. We grow trees, shrubs, grasses, and wildflowers typical of southern-Michigan woodlands, wetlands, and prairies. It is our objective to propagate nursery stock with enough genetic diversity to create self-sustaining populations. Therefore, the vast majority of our plants are grown from wild seed stock. This is what we mean when we say our plants are born to be wild.

Wildtype also provides ecological design and consulting services for public, commercial, and residential projects, focusing on restoration and preservation of native landscape. Services offered include: species inventory and site assessment, design and planning, and the establishment and management of native landscape. Please contact us for more information.

Central Wisconsin Chapter

Our 1853 farmstead on the Crystal River, in the historic village of Rural, exudes country charm on “Rustic Road 23,” 4 miles south of Waupaca, in Central Wisconsin. As Wild Ones members, we are committed to making as gentle impact on the Earth as possible and to grow more plant communities and wildlife habitat on our 11 acres. We are “Travel Green Wisconsin” certified, and have just begun our work of prairie restoration and invasives removal on this former farm. The Inn features seven guest rooms with antique furnishings, a view of the river or woods, a nook for reading or visiting, and two cabins for families. Guest rooms have private baths and fireplaces. Two rooms also have a double whirlpool. All include a full breakfast with a Southern touch, featuring our homemade local wild grape and wild plum jelly. Our non-smoking environment has detention, retention, and rainwater basins, stormwater management, bluebird houses. The wide variety of habitat on our retaining walls, environmental consulting, and ties, sales, and installation of Envirolok vegetated fireplaces. Two rooms also have a double whirlpool.

Formeology, LLC is a full-service landscape design, installation, and care firm, focusing on regionally inspired and sustainable outdoor-living environments for residential and commercial settings. “Formeology” is born from the idea of combining art with nature; bringing natural elements together with cultural art forms to create landscapes that are appropriate both to site architecture and nature. Our training and experience in landscape-design principles enables us to artistically combine native plants and local materials in an inherently eco-friendly way, for a wide variety of settings. Sustainable outdoor-living environments created by Formeology, LLC, provide a vision and master plan for achieving a fulfilling and rewarding outdoor lifestyle, while being mindful of the environment.

Good Oak Ecological Services
205 Walter St, Madison WI 53714
(608) 209-0607
frank@goodoaklc.com
www.goodoaklc.com
Madison Chapter

At Good Oak Ecological Services our mission is to improve the environment for the benefit of people and the natural community. We are experts in native plants and the ecology of natural areas, and we use this knowledge to create beautiful native landscapes, and restore natural areas to a more pristine condition. Our primary background is in natural areas restoration, a discipline in which we work to rehabilitate damaged ecosystems so that these wonderful places and the wildlife that live in them can thrive and be enjoyed far into the future. But these remaining natural areas alone are too small and too fragmented to provide enough habitat for our wild plants and animals. Our cities and towns are sterile, with heavily manicured shrubs, high-maintenance lawns, and chemically dependent lawns. By working with us to integrate native plants into our human landscape we can enliven your home, business, and community, while giving our wild plants, butterflies, birds, and other wildlife a place to live.

brayherb@mtc.net
Central Wisconsin Chapter
Shade-loving woodland wildflowers are our specialty. We have over 25 years of experience growing them under artificial shade. Starting with ginseng in the early '70s, we branched out into goldenseal, and ultimately into woodland wildflowers native to the forests of the upper Midwest. Our flowers are grown almost entirely from seeds gathered in the woods around our farm. We have been able to amass a nice collection of plants without dislocating the parent sources from their native habitat. We think you will find these nursery-grown plants to be vigorous and well-suited as potted plants for nursery sales, for private landscaping, or for commercial restoration projects. We ship bare-root, for overnight or next-day delivery, primarily in spring or fall, but at other times by request.

Monarda, LLC
525 Maple Ave, Madison WI 53704
(608) 836-0054
info@monarda.biz
www.monarda.biz
Madison Chapter
Monarda provides environmental consulting and restoration services, specializing in urban and suburban properties. We prepare restoration-
management plans; remove invasive trees, shrubs, and weeds; design and install rain gardens; and protect property from wildfire. We work with you to make your vision and goals real. Monarda offers an integrated approach to restoration, which includes the use of herbicides. However, we recognize that many of our clients do not want chemical pesticides of any kind used on their property. So we developed a set of management best practices that allow us to forego chemicals on properties of 5 acres or less, where pesticide use is the greatest concern.

Green Bay Chapter
NES Ecological Services is a committed group of ecologists whose diverse backgrounds include restoration ecology, wildlife management, and wetland ecology. Located in Green Bay and Madison, NES serves clients throughout Wisconsin and the upper Midwest. Since 1996, we have provided native-habitat restoration services to municipalities, lake management districts and associations, the WDNR, the USFWS, and individual landowners. These services include planning and design, material installation, monitoring, and maintenance. NES ecologists use their knowledge and experience with Wisconsin’s native-community types to design and implement aesthetically pleasing, natural landscapes that utilize plant species native to the site’s region. Each restoration project is catered to the individual or group based upon their needs, experience, and desire to be involved with the “hands-on” portion of the project. Visit our web site to review a few of our most recent projects along with a complete list of all the services we offer.

Northern Native Plantscapes
28350 S Garden Ave

Taylor Creek Restoration Nurseries (TCRN) has over 25 years of experience growing local genotype native plants and seed for use on many high-profile restoration projects throughout the Midwest. We now offer native trees and shrubs in addition to over 400 species of native plants and grasses for native landscape and restoration projects. Our new RPM trees and shrubs are available in 3-gallon containers, and have excellent root mass for high survival rates and rapid growth. We also offer a new, speedy dropship service for small plant orders during spring and fall. TCRN is a division of Applied Ecological Services, Inc. an ecological restoration firm offering consulting and construction services: native landscape design and construction, ecological review, restoration design, and bioengineering for streambank, shoreline, and slope restoration.
The Chicago Botanic Garden is situated on nine islands surrounded by lakes. One of the great treasures of the Chicago Botanic Garden is 24 display gardens and four natural areas uniquely with its world-renowned plant collections and diverse plant-science resources and accurate information to users by collecting, organizing, preserving, and sharing subject-specific materials for current and future use, while supporting all objectives of the Chicago Botanic Garden.

Mid-Mitten Chapter
Chippewa Nature Center is private, non-profit organization whose mission is to inspire people and institutions to protect the natural world. The Center includes 1,200 acres of woodlands, wetlands, rivers, and upland fields. There are more than 15 miles of hiking trails open daily, including the Chippewa Trail, a 3.5-mile recreational trail to downtown Midland. A wide variety of programs are offered year-round for children, families, and adults, along with school programs, Nature Preschool and Summer Nature Day Camp. CNC is also home to a complex of three restored log buildings, encouraging visitors to step back in time. The Center offers free admission daily, except during major events. A native-plant sale held each spring offers native genotype plants, along with advice and help with planning natural areas. Wildflower and fungi hikes throughout the year, and the Great Lakes Arboretum of Michigan trees and shrubs encourage participants to use native plants. Lots of other hikes, field trips, and workshops are also part of the daily schedule. Visit our web site for current program information.

Kalamazoo Nature Center
7000 N Westnedge Ave, Kalamazoo MI 49007
(269) 381-1574 ext 17
knaturecenter.org
The Kalamazoo Nature Center is a not-for-profit organization whose mission is to inspire people to care for the environment by providing experiences that lead them to understand their connection to the natural world. Our Community Wildlife Program works with businesses, golf courses, schools, and private landowners to enhance wildlife habitat through native landscaping. We can assist with site evaluation, plant selection, design, and installation. Our Great Lakes Ecological Program offers services such as site evaluation, management plan development, and implementation. Specializing in invasive species control prescribed fire, the Great Lakes Ecological Management team has worked with government, non-profits, and private landowners to implement large- and small-scale restoration activities.

Lake-To-Prairie Chapter
The Wildflower Preservation and Propagation Committee was formed in 1983, in McHenry County, Illinois. As a non-profit organization, we are dedicated to promoting the use of native plants through preservation, propagation, and education. We accomplish our mission through the following programs and activities: natural landscaping seminar the last Saturday in February; native plant sale the first Sunday in May; a Natural Garden In Your Yard, a homeowner mentoring program; outdoor classroom grants; Walks on the Wildside, our natural yard tours.

Our Business and Affiliate Members are important to Wild Ones
When visiting any of our Business or Affiliate Members, show them your Wild Ones I.D. card, and let them know you heard about them through Wild Ones. Remember that some Business Members give discounts to Wild Ones members.
help us to share the benefits of rebuilding native-plant habitats. We’ve established the Campus Beautification Endowment fund to support MCC campus gardens and the educational benefits they afford our students. Tax-deductible donations may be made payable to the Foundation for Mott Community College (501(c)(3)), and mailed to the address above.

Habitat Gardening in Central New York Chapter
Orange County Community College is a two-year institution of higher education established by the authority of the State of New York, and sponsored by the County of Orange. The Biology Department is working on a collaborative project with Cornell Cooperative Extension’s Master Gardeners Program to Go Green, The Biology Club and the Sustainability Committee invite all students to get involved in this global effort at the college. SUNY Orange students are taking action to help our school become part of the global effort to save our planet, and to be part of the solution to positively impact the fate of our future.

All the photos used in the Wild Ones Yellow Pages were taken by Wild Ones members, for our annual photo contests, and for other occasions.

OHIO

Greater Cincinnati Chapter
The Civic Garden Center is a non-profit horticultural resource dedicated to “building community through gardening, education, and environmental stewardship.” It is an oasis in the city – eight beautifully landscaped acres open daily to visitors at no charge, and located 2.5 miles from downtown Cincinnati. Volunteers donate their time to maintain the grounds, and they and others provide financial support to the organization that was founded in 1942. Our cornerstone programs – Neighborhood Gardens touch 23 communities with over 47 active gardens, Compost Kids and Summer Sprouts programs introduce young people to gardening. The Civic Garden Center provides education and information to individuals, schools, organizations, and businesses through its Horticulture Helpline, library, classes, hands-on workshops, tours, special events, and outreach programs. Visit the Civic Garden Center, Monday through Saturday from 9:00 am - 4:00 pm.

WISCONSIN
Appleton Neighborhood Voice
802 N Appleton St, Appleton WI 54911
nmmsaba@hotmail.com
Fox Valley Area Chapter
The Appleton Neighborhood Voice’s mission is to preserve, promote, and enhance the character, beauty, safety, and overall livability of the neighborhoods surrounding historic Columbus School and Zion Lutheran Church, in the city of Appleton, Wisconsin. Our purpose is to preserve the neighborhood’s intrinsic value as an area of historic homes, to work with surrounding businesses to promote and enhance a sustainable lifestyle, to provide a forum for discussion of neighborhood issues in order to promote the community, its activities and interests, to work with other neighborhood groups in the city of Appleton to address common problems and projects, and to involve as many of our citizens as possible in these efforts.

Fox Valley Area Chapter
Beautifully situated on 1,000 acres along the shores of Wisconsin’s deepest lake, Green Lake Conference Center is a premier Christian conference and leadership training center. We also host retreats and conferences for other groups including universities, school environmental education classes, and non-profit companies. We are a favorite destination for family reunions and vacations. We encourage our visitors to take advantage of the ample opportunities our grounds provide for a wide variety of outdoor activities during their stay. We are very proud of our 57-acre native prairie. The Dawson Prairie, as it’s known, began development in 1990, on land that had been farmed for many years. Final prairie planting was completed in 2001. The prairie is ideally located between our camping areas, youth center, and historic 1850s homestead log cabin. The Dawson Prairie has steadily gained in popularity as its development progresses, with increased awareness and appreciation for the fact that the site is populated entirely with native plants. In addition to the groups who use and enjoy Dawson Prairie on a casual basis, many area schools and community organizations have made it a supporting part of their curriculum. Through day visits and consecutive sessions, the Prairie serves as a living classroom in environmental education. We hope to increase this use through our alliance with Wild Ones.

Heckrodt Wetland Reserve
1305 Plank Rd PO Box 554
Menasha WI 54952
(920) 720-9349
heckrodtwetland.tk@tds.net
www.heckrodtwetland.com
Fox Valley Area Chapter
Heckrodt Wetland Reserve includes 76 acres of forested wetland, wetland meadow, open water, and upland field communities. The wheelchair- and stroller-friendly 3-plus-mile trail system includes a boardwalk that allows access to the wetland without getting wet feet. Facilities include a nature center with indoor living wetland and live reptiles, amphibians, and fish, as well as mounted specimens of Wisconsin mammals and bird species. Educational programs are provided for schools, day cares, special focus groups, and the general public. Our goal is to provide visitor education while fostering an ethic of environmental stewardship in a fun, hands-on atmosphere.

Outagamie County Housing Authority
3020 E Winslow Ave, Appleton WI 54911
(920) 731-9781x201
jlincolln@outagamiehousing.us
www.outagamiehousing.us
Fox Valley Area Chapter
The Authority’s primary mission is to assist county residents in meeting their housing needs. It serves by offering subsidized housing to qualified applicants, and, through its staff, continues to explore housing options for all segments of the community. It accepts responsibility for the coordination of services to housing development residents, and actively cooperates with local agencies whose objectives parallel or impact upon its own. The authority is committed to search for housing alternatives, and to promoting sustainability in their endeavors.

The Bridge-Between Retreat Center
4471 Flaherty Lane, Denmark WI 54208
(800) 864-7230
info@bridge-between.com
www.bridge-between.org
Green Bay Chapter
The Bridge-Between Retreat Center, established in 1967, is nestled in the countryside on a 100-year-old working farm. The Bridge’s mission is to provide a contemplative place in which to deepen relationships with God, self, neighbor, and Creation. We serve both soul and soil, striving to reverence Earth in all that we do – building a sustainable future. The center offers day and overnight retreats for groups and individuals, spiritual direction, workshops, special events, and off-site speaking engagements. All are welcome. Come join in a family-style meal, learn, relax, pause, and appreciate all of Creation’s sacredness. Volunteer opportunities abound.
Are You Ready for a Wild Idea?
Join Wild Ones as a Business Member or an Affiliate Not-for-Profit Organization Member
Grow Your Organization Along With Wild Ones.

Wild Ones: Native Plants, Natural Landscapes promotes environmentally sound landscaping practices to preserve biodiversity through the preservation, restoration, and establishment of native-plant communities. Wild Ones, a voice for the natural landscaping movement, was established in 1979, and now has more than 50 chapters in North America.

Wild Ones events include seed gathering, seed exchanges, plant rescues, plant sales, speaker presentations, bus tours, garden tours, conferences, and community projects. New chapters are forming all the time. For a current listing of chapter locations, visit our web site or contact us directly.

Wild Ones: Native Plants, Natural Landscapes is a not-for-profit educational organization. Your Business Membership or Affiliate Membership donation is fully tax-deductible.

Benefits of membership for Wild Ones
Business Members and Affiliate Members
Join this growing movement today. As a Wild Ones Business Member or Affiliate Member, your organization is entitled to these great benefits:

- Acknowledgement in the Wild Ones Journal.
- Annual listing in the Wild Ones Journal.
- Listing on Wild Ones web site (www.for-wild.org).

And to share with your employees and clients:

- Extra copies of the Wild Ones New Member Handbook.
- Extra copies of the bi-monthly Wild Ones Journal.
- Copies of Wild Ones educational brochures to share with clients and the community.
- Wild Ones Recognition Decal for your office or shop window.

Your Business Membership or Affiliate Membership entitles you and your organization to participate in all Wild Ones national and chapter activities, either locally or across the United States – a great networking opportunity.

A special thank you for our Business and Affiliate Members
By joining with Wild Ones, your organization has taken an important step toward raising awareness of the benefits of native plants and natural landscaping.

Your commitment to Wild Ones tells everyone that you understand the importance of working toward a sustainable future – a goal everyone can relate to.

And your financial commitment in these difficult economic times helps ensure that our educational and advocacy programs will continue to further our mission in the years to come.

The Wild Ones staff and all Wild Ones members realize the importance of your help, and commend you for your continued efforts in conservation and preservation.

Thank you so much.
